About iVOOMi Energy

Established in 2001 under the leadership of Mr. Sunil Bansal and Mr. Ashwin Bhandari, iVOOMi innovation successfully made strides in different various sectors such as telecommunication, audio equipment, technology accessories, DIY components, and smart gadgets. With the aim of adding value to the consumer's life by providing holistic e-mobility products and services to create a sustainable & greener future for the coming generation, iVOOMi has emerged as one of the fastest growing EV Designers and Manufactures of the country.

Why iVOOMi Energy

Proprietary on Vehicle & Battery Pack design - iVOOMi is one the 5 EV battery manufactures who controls its battery packs on a cellular level. This helps iVOOMi be flexible and extremely adaptive towards the constantly changing needs of the sunrising electric vehicle industry. iVOOMi believes in holistic feedback oriented product design which is reflected in the constantly evolving & improving product design.

Swappable Batteries - Since its inception it has been a strategic decision for iVOOMi to ensure that all our vehicles are powered by swappable batteries. This adds value to by making it extremely convenient for the consumer's to charge the batteries where ever they deem fit. iVOOMi chargers are extremely portable and efficient as well. Easy to carry and plug in a normal house hold outlet, they are light weight and have built in surge protection which ensure next level safety for the consumers and vehicles.

Maximum Safety - iVOOMi truly value and believes in safety. All iVOOMi products are protected well within the safety regulations set by the Indian government, iVOOMi believes in going beyond the call of duty for which it has ensured even further more safety norms to ensure the safety of the consumer and the product. Right from getting all of the products include the vehicles, battery and charger certified by the prestigious ARAI, multiple layers of safety, surge protection has been implemented on the charger, battery and vehicle level.

Made in India - iVOOMi products including the battery are 100% designed and manufactured in India, staying vocal for local. With 3 manufacturing plant spread across the country, iVOOMi plans on growing & spreading its wings across the country to ensure the best possible service to its dealers and Consumers.

Trustworthy & Reliable - iVOOMi believes in reliable, quick & solution oriented service which ensures that the consumer's trust over the brand is ever growing, creating an hassle-free experience.

Young, Motivated & Demanding - The iVOOMi team is committed to providing new ideas and engineering new age solutions to the consumers which can great value to their day to day experience. The iVOOMi teams has a zero compromising policy to wards quality & perfection. Team iVOOMi is powered and backed by young professionals with clear alignment to the brand's core values.

Be The Change

iVOOMi S1

95 kms per Charge

Ex-Showroom - 84,999/-

	Specification	S1
Performance	Top Speed	60 to 65 kmph
Range	Economical Range @ <40 kmph	110+ km
	Rider Mode @ 45 kmph	105+ km
	Speed Mode @ > 45 kmph	80+ km
Motor	Motor Wattage	Typical 1.6 kw (Max 2.1 kw)
	Motor Type	Permanent Magnet Motor
	Motor Style	Hub Motor
Charging	0 - 50%	2 hrs
	0 - 80%	4 hrs
	0 - 100%	5 hrs
Tyres & Wheel	Tyre (Front)	90/100/10
	Tyre (Rear)	90/100/10
Brakes	Braking System	Disc-Drum
	Brake Type Front	Disc
	Brake Type Rear	Drum
Dimension	Length x Width x Height	1825x625x1180 mm
	Ground Clearance	170 mm
Warranty* <small>(As per Standard Warranty Terms)</small>	Battery	3 Yrs., 30000 km
	Vehicle	1 Yr., 30000 km
Features	Mobile Smart Phone Charger	5V, 2.5A (Fast Charger)
	Anti Theft Wheel Lock	Yes, Electronic Locking System
	Parking Mode	One Touch Assist
	Reverse Gear	> 6 kmph
Safety	Vehicle Safety	Five safety connection for Short Circuit, Over current & Over Voltage protection
	Circuit breaker	Electronic 32 A
	Mirror	High Quality Convex Glass
	Braking System	E-ABS
	Throttle	Electronic, Linear with 1% Accuracy
	Auto Cut-off	Yes, Electronic Switch Based
	Charging point	5A, General Household Shocked
	Thermal protection	Yes in all Critical Parts like Controller, Motor, Battery & Charger
